Get to Know Us

AideOne consulting company dedicated to aiding businesses to fulfill their vision using first-class technology and a dedicated highly skilled team to provide business financial, tax, accounting, human resources, and audit services.

Unique Audit Service

Audit at AideOne goes beyond the numbers to discover what the data reveals with emphasis on developing a comprehensive understanding of your business as well as recommending measures that can improve performance and close loopholes

Quality Review

Integrity and quality are strong pillars on which our audit approach rests coupled with an efficient audit process that facilitates the effective review and assessment of financial information of a business.

Seasoned Professionals

We are a team of seasoned professionals with extensive audit and technical know-how, dedicated to using technology to carry out our audit engagements.

Solid Output

We are dedicated to client satisfaction and high-quality output. We produce a robust financial statement and a comprehensive management letter that highlights major issues observed during the audit and the level of risk they pose to the business.

OUR QUALITIES

Timely delivery

To ensure that our clients get optimum satisfaction, we work around the clock to ensure that proper audit work is done within the time frame set at the inception of the engagement.

Industry Experience

Our experience cuts across different industries which include media and entertainment, Fast Moving Consumer Goods (FMCG), Education, Telecommunication, Manufacturing, Service, Transport, and many more.

Confidentiality

Our engagements require we have access to clients' information some of which may be highly confidential. We ensure that control over all confidential information is strictly monitored with access to such information being restricted only to members of the engagement team, who are required to confirm their independence before the commencement of the audit.

Value- Add

In addition to a thorough audit, we offer free comprehensive review of your systems and control and the development of key accounting processes that align with industry best practices
